

PROFESSIONAL LEARNING PARTNER GUIDE

www.plpartnerguide.org

The **Professional Learning Partner Guide** (PLPG) provides states and school systems with a searchable database of national and local providers who have the expertise to support the adoption and implementation of high-quality instructional materials (HQIM¹). For additional information, view our **Scoring & Evidence Guide**.

PLPG ELIGIBILITY & APPLICATION

Any and all professional learning organizations who specialize in providing HQIM-specific support are invited to apply to be included in the PLPG. This includes local, regional (e.g. regional service centers), and national providers.

PL organizations must pass three gateways to qualify for inclusion in the PLPG. Specifically, PL services must demonstrate:

- * expertise in and explicit connection to HQIM and content (Gateway 1).
- * quality of professional learning design (Gateway 2).
- * a clear process for measuring results and using data to plan and improve their services (Gateway 3).

Each application undergoes a thorough review process by a trained team of educators to assess whether or not the applicant provides significant evidence of robust, HQIM-aligned professional learning services. Rivet reviews professional learning organizations and services twice a year.

¹ Rivet defines 'high-quality instructional materials' as those materials that have been reviewed and rated 'Meets Expectations' on the first two gateways in **EdReports** in all grade levels for their respective grade band (K-2, 3-5, 6-8, 9-12). For science, HQIM is also defined as those curricula that have at least two units per grade band (K-2, 3-5, 6-8 and 9-12) that have been reviewed and rated on the **Equip rubric** as *High Quality NGSS Design* or *High Quality NGSS Design if Improved*.
